QNC , Orators Club & JNCT Nature Club jointly organized online discussion on "BIODIVERSITY" on the occasion of International Biodiversity Day(May22) " 2021 , theme was "We are part of the solution " , in which students of LNCT GROUP participated And everyone believed that

"Biodiversity is essential because it impacts on all of our lives, both directly and indirectly. All species, including humans, require a range of basic resources to keep them alive and healthy. Humans need oxygen to breathe, water to drink, food to eat and shelter from the weather. The living things on our planet provide many of these things for us, so their conservation is vital if we are to survive. Yet, a lot of human activity

is having a negative impact on biodiversity across the world." Professor (Dr.) Amitbodh Upadhyaya , coordinator , QNC , LNCT GROUP was addressed the webinar , He said that we are facing the challenges of biodiversity degradation due to deforestation, mining, climate change , Global warming , Plastic Pollution , E waste and other factors & We will have to adopt sustainable development .Apart from this students discussed about the environmental work that the students are doing for conservation of environment, biodiversity in their homes, institutions or in the locality.
