## Mr. Wahidullah Sediqui- Civil Engineering

Studying at LNCT is like dream come true , I still remember my days in Kabul , Afghanistan where I was looking to get an institute which could offer me an affordable education without compromising on quality education and now I can say that my search has been finished. My parents are not over burden with too much fees, hostel fees is very affordable , education is much better than any other Universities in India. What can I say about City –Its just a Heaven on Earth , the natural beauty is the attraction of this city and moreover Bhopal is called as City of Lakes where one can go for boating in the evening and relax their minds. My teachers are more supportive and International students have the access to Central Library without any hassle and issues. Campus is full Wi Fi.
